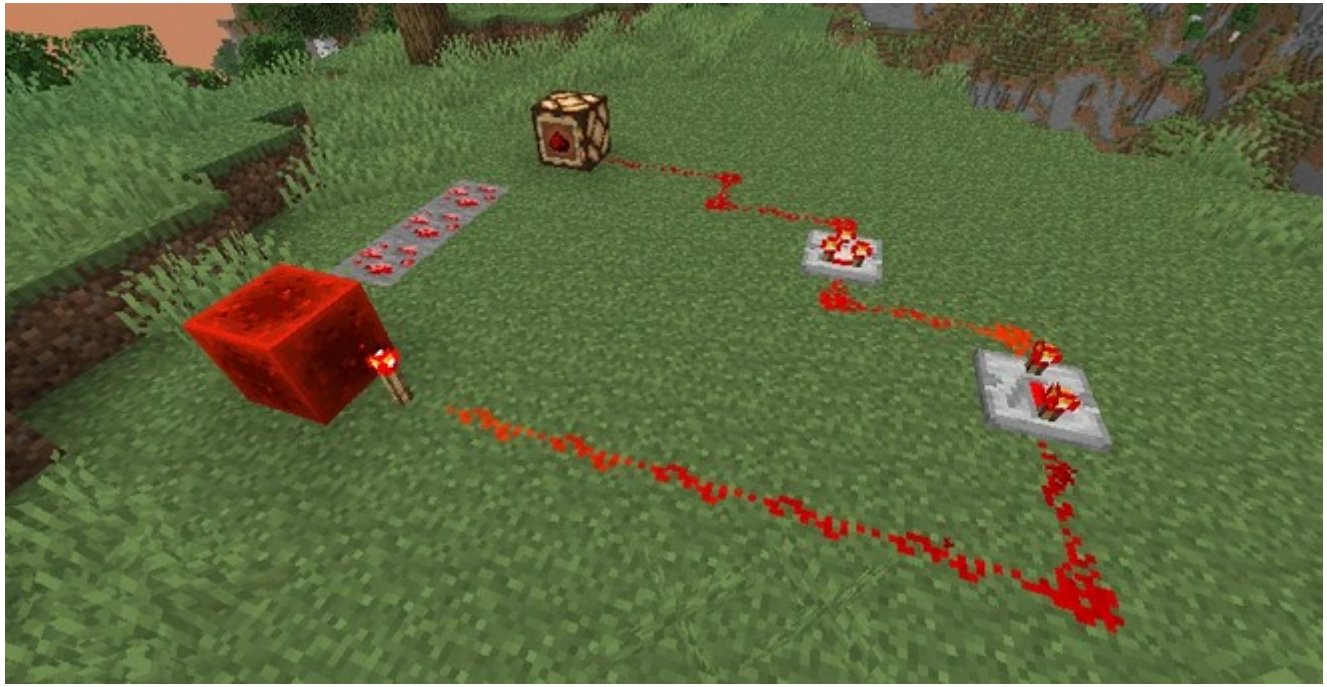
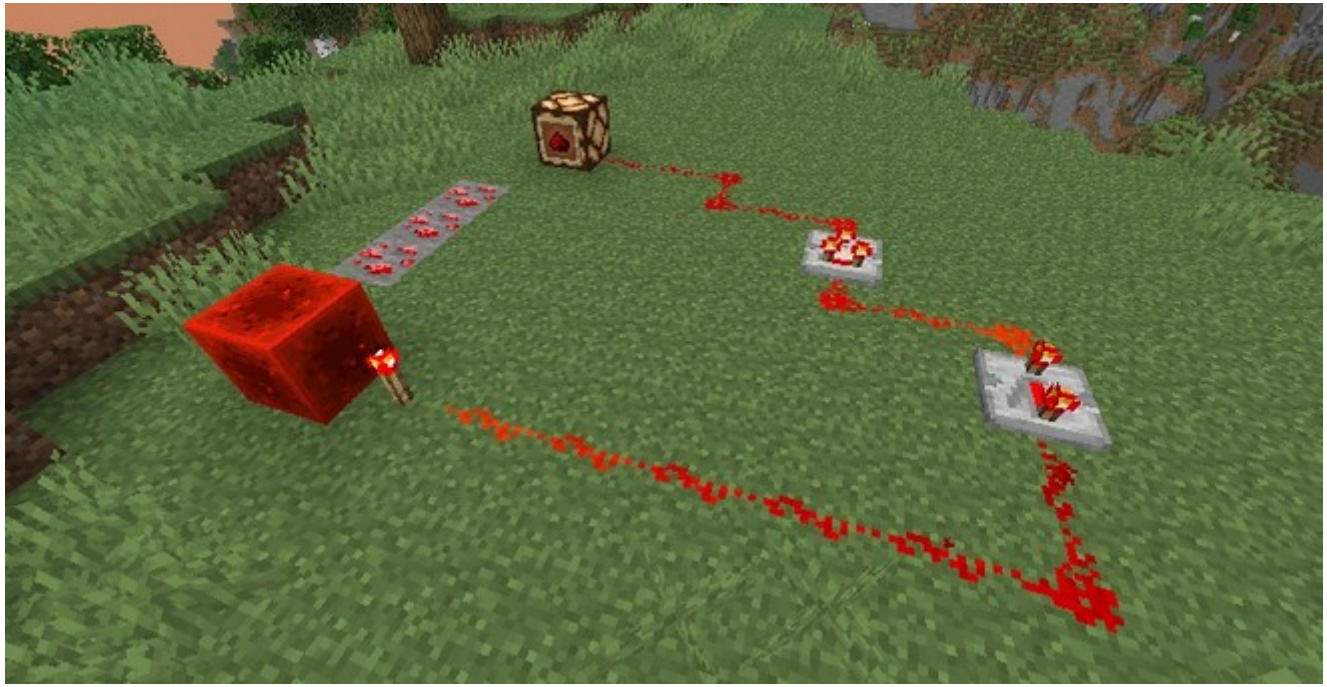
Hack The Web – Minecraft II



In this challenge, we're told to identify a category of blocks from the Minecraft game

Hack The Web – Minecraft II



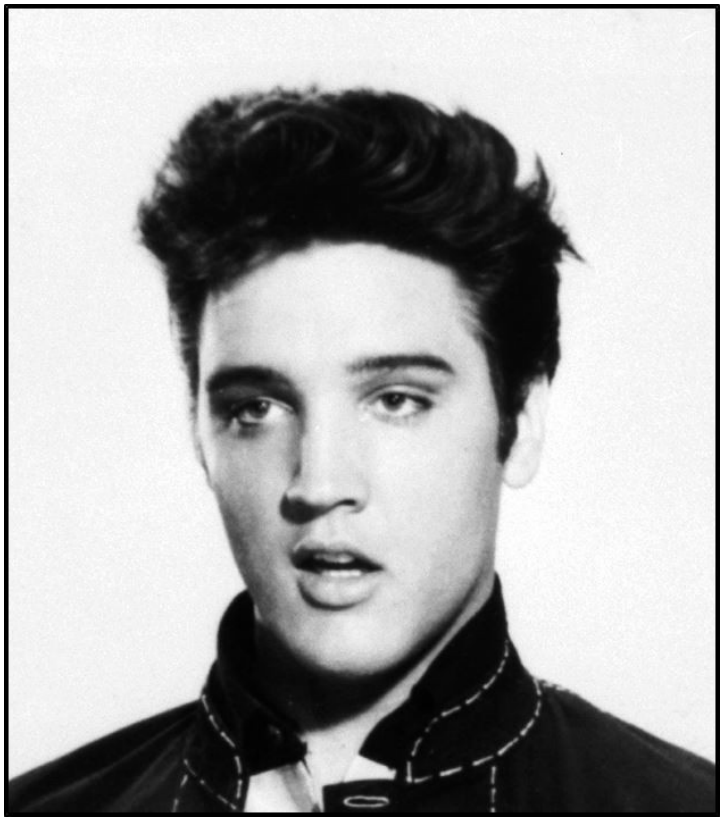
If we didn't know anything about Minecraft, we can use OSINT to research the answer

What is OSINT?

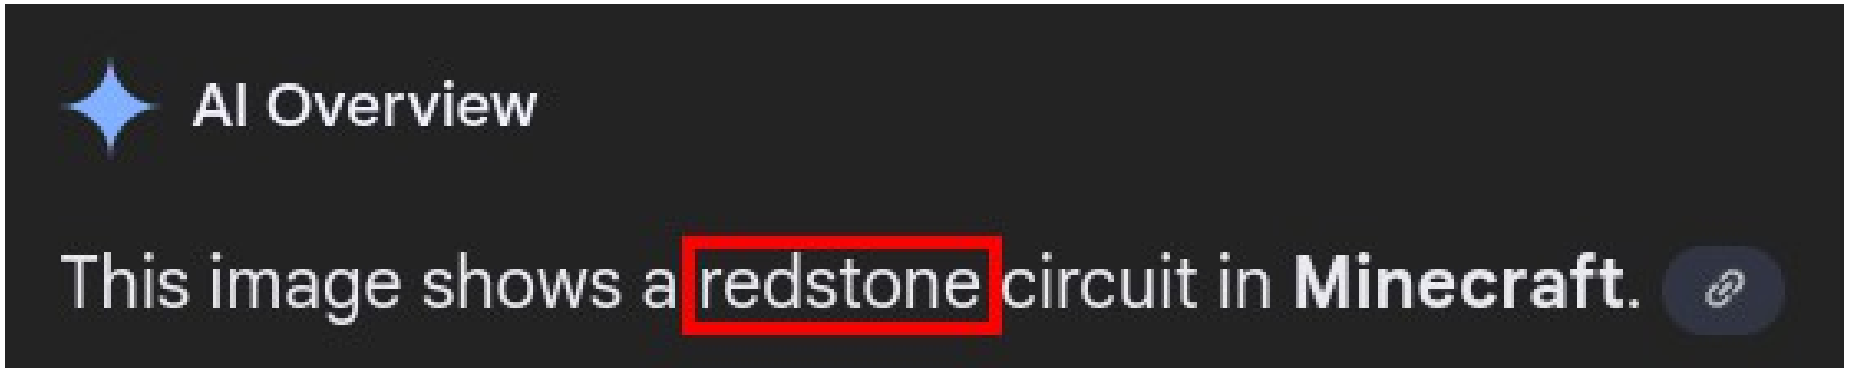
OSINT stands for (O)pen (S)ource (INT)elligence, and it is the act of learning about a subject through publicly available information sources

What is OSINT?

For example, if we want to use OSINT to learn about Elvis Presley, we could search online, read books written about him, listen to his music – any public source of information could be considered a valid source in OSINT



HTW – Minecraft – Reverse Image Search



In this case, we can use a reverse image search tool to identify what category these blocks fall under

HTW – Minecraft – AI Assistance

What category of blocks do these blocks fall under?

The blocks in the image all fall under the **Redstone category** (often found in the "Redstone Blocks" tab in Creative Mode) [4, 18, 20].

And we can confirm the answer by asking the AI the question asked by the challenge
