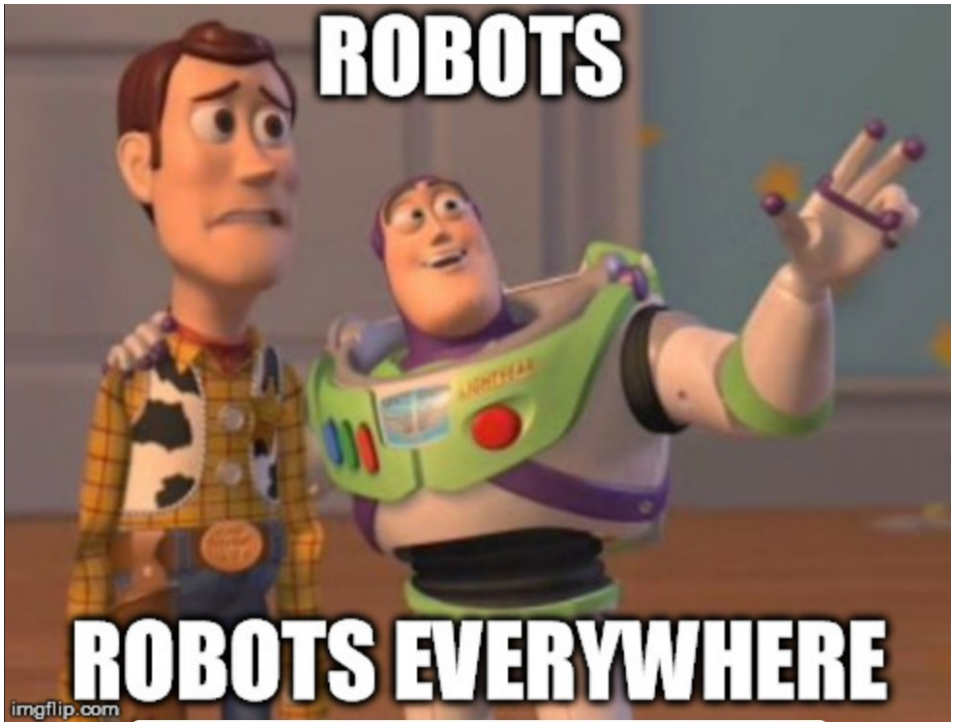
OLIcyber – No Robots Here

Are you able to find robots?

Website: http://no-robots.challs.olicyber.it

This challenge instructs us to go to a specific website and 'find the robots'

No Robots Here – Robots.txt



This is a reference to robots.txt, a file that can be included on websites that instructs search engine robots which parts of the website can and cannot be indexed by the search engine

No Robots Here – Robots.txt

```
User-agent: *
Disallow: /I77p0mhKjr.html
```

When we manually navigate to the robots.txt file on the website, we see that there's one webpage that is not allowed to be indexed by search engine robots

No Robots Here – Robots.txt

```
User-agent: *
Disallow: /I77p0mhKjr.html
```

Although the robots.txt file has legitimate uses, this illustrates how it can inadvertently direct malicious users to sensitive areas of the website
