

OLlcyber – iForgot

nothing here UwU

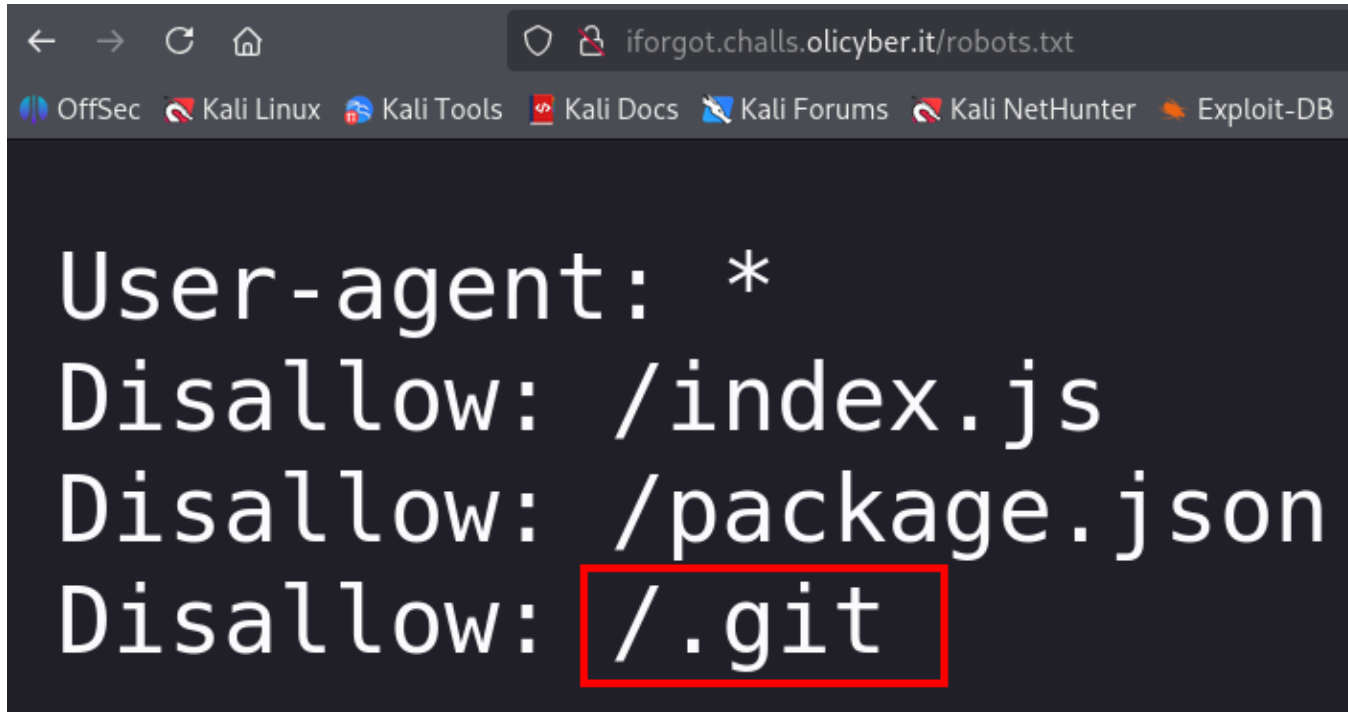

This challenge instructs us to visit a website, but
there's nothing there

iForgot – Robots.txt

On some websites there is a robots.txt file that instructs search engine robots which parts of the website can and cannot be indexed by the search engine

iForgot – Robots.txt

```
← → ↻ 🏠 iforgot.challs.olicyber.it/robots.txt  
OffSec Kali Linux Kali Tools Kali Docs Kali Forums Kali NetHunter Exploit-DB  
User-agent: *  
Disallow: /index.js  
Disallow: /package.json  
Disallow: /.git
```

When we visit this website's robots.txt page, we see that there is a Git repository being hosted on the website

iForgot – Git Repository

Git is a very popular software version control system which can be used for collaborative software development

iForgot – Git Repository

git-dumper

A tool to dump a git repository from a website.

There are specialized security tools for extracting Git repositories from inspection, such as Gitdumper

iForgot – Git Repository

```
commit bb2b038954f222b7ba4221cf125773f8557eadfb (HEAD → master)
Author: SuperHacker11 <super@hackerz.real>
Date: Thu Sep 18 08:41:29 2025 +0000

    removed flag

diff --git a/flag.txt b/flag.txt
deleted file mode 100644
index 9456de7..0000000
--- a/flag.txt
+++ /dev/null
@@ -1,0 @@
-flag{oh_really_did_u_forget_to_remove_this_dot_git_repo!}
```

After dumping the Git repo, we can find the flag in the Git log..
