

OLIcyber – Sito Vuoto (Empty Site) Website Source Code Search

This site is empty, where will the flag ever be?

Website: <http://vuoto.challs.olicyber.it>

This challenge instructs us to visit an empty site
and find a flag

The landing page of the site does indeed look empty, and there are no links to click

```
<title>Sito vuoto</title>
<!-- E invece no, ecco la prima parte della flag: "flag{you_}" --&gt;
&lt;link href="css/style.css" rel="stylesheet" type="text/css" /&gt;
&lt;link
  href="https://fonts.googleapis.com/css?family=Ropa+Sans:400,400i"
  rel="stylesheet"
/&gt;
&lt;script src='js/script.js'&gt;&lt;/script&gt;</pre>
```

But if we look at the webpage source code we see there are references to other files as well as part of the flag

If we look at these other files and assemble the flag from its parts, we can solve the challenge
