

# OLIcyber – Rick Roller

Rick roller

Ready to get the flag? Press the button

WIN US!

This challenge has a button which redirects us to a familiar troll link

# OLIcyber – Rick Roller

```
<h1>Rick roller</h1>
<p>Pronto a prendere la flag? Prem
<a href="get_flag.php" class="btn"
```

If we look at the source code for the page, we see the button takes us to a webpage called /get\_flag.php

# OLlcyber – Rick Roller

```
< HTTP/1.1 302 Found
< Content-Length: 30
< Content-Type: text/html; charset=UTF-8
< Date: Mon, 09 Feb 2026 22:08:54 GMT
< Location: https://www.youtube.com/watch?v=dQw4w9WgXcQ
< Server: Apache/2.4.56 (Debian)
< X-Powered-By: PHP/8.0.30
<
* Connection #0 to host roller.challs.ollicyber.it left
flag{rick_rolley_classic_m0n0}
```

If we access this page with curl, we see that it redirects us to the RickRoll YouTube page, but it also includes the flag..
