

Hack The Web – UNIX

In which year is the point in time 817876800?

In this challenge, we're told to look the time associated with a specific number

Hack The Web – UNIX

Unix Timestamps

817876800 what year

The Unix timestamp 817876800 represents the year 1995.

If we ask an AI this exact question, it will identify the number as a Unix timestamp

Hack The Web – UNIX

Unix Timestamps

The Unix epoch started on January 1, 1970

A Unix timestamp is a number that represents the number of seconds that have passed since the start of the Unix epoch, which in normal date format is January 1st, 1970

Hack The Web – UNIX

Unix Timestamps

Unix timestamp: 817876800

Standard time: 1995, December 2, 4:00 AM

Many computer systems and programs keep track of time using Unix timestamps because it's a lot easier to implement a single number when tracking time rather than six numbers that roll over
