

Hack The Web – Tube II

In case you thought Bex's calculator was bad - I've dug up something even better for you:
A calculator in the shape of a tube. Yes, something like that exists and it's messing with
my head 🤪

Calculate the number 1000 and submit the result with **submit**:

In this challenge, we're asked to use a tube calculator to calculate to the number 1337

Hack The Web – Tube II

RPN Calculator

Infix (Standard) Notation

1+2

(3+4)×(5+6)

Reverse Polish Notation

12+

34+56+x

The type of calculator used in this challenge is more commonly known as a RPN (Reverse Polish Notation) calculator

Hack The Web – Tube II

RPN Calculator

Infix (Standard) Notation

1+2

(3+4)×(5+6)

Reverse Polish Notation

12+

34+56+x

So our first example 12+, is the same as 1+2 in regular math

RPN Calculator

Infix (Standard) Notation

1+2

(3+4)×(5+6)

Reverse Polish Notation

12+

34+56+x

So our first example 12+, is the same as 1+2 in regular math

Hack The Web – Tube RPN Calculator

Standard Notation

$$1000 = 10 \times 10 \times 10 = (5 \times 2) \times (5 \times 2) \times (5 \times 2)$$

$$300 = 10 \times 10 \times 3 = (5 \times 2) \times (5 \times 2) \times 3$$

$$37 = (10 \times 3) + 7 = (5 \times 2 \times 3) + 7$$

RPM Notation

$$52 \times 52 \times 52 \times \times \times$$

$$52 \times 52 \times \times 3 \times$$

$$52 \times 3 \times \times 7 + + +$$

In this case, because we want to calculate to the total of 1337, we use this RPM equation
