Hack the Web - File

This challenge wants us to download an image file, but there's something wrong with the file name

Hack the Web – File
File Extensions

If we download this file and try to open it, we will not see regular image file information

Hack the Web – File
File Extensions

Text files:	.txt
Picture files:	.jpg .gif .png
Executable files:	.exe .bat
Python files:	.py

The reason why we don't see an image is because images need to have a specific file extension, .jpg, .gif, .png, etc

Hack the Web – File
File Extensions

Text files:	.txt
Picture files:	.jpg .gif .png
Executable files:	.exe .bat
Python files:	.py

Computer systems use file extensions to identify what format a file is in, and what program to use to open that file

Hack the Web – File
File Extensions

We can open this file as a picture if we modify the file name's extension to .jpg
