

Hacker Holidays 2026 – Day 0

The Brochure

TODAY'S ITINERARY

- ☐ Analyze the provided image for embedded clues.
- ☐ Apply fundamental OSINT techniques to trace the findings.
- ☐ Locate the hidden social media account.
- ☐ Submit the flag.

In this first challenge for the Hacker Holidays, we're asked to do some OSINT on an image

Hacker Holidays 2026 – Day 0

The Brochure

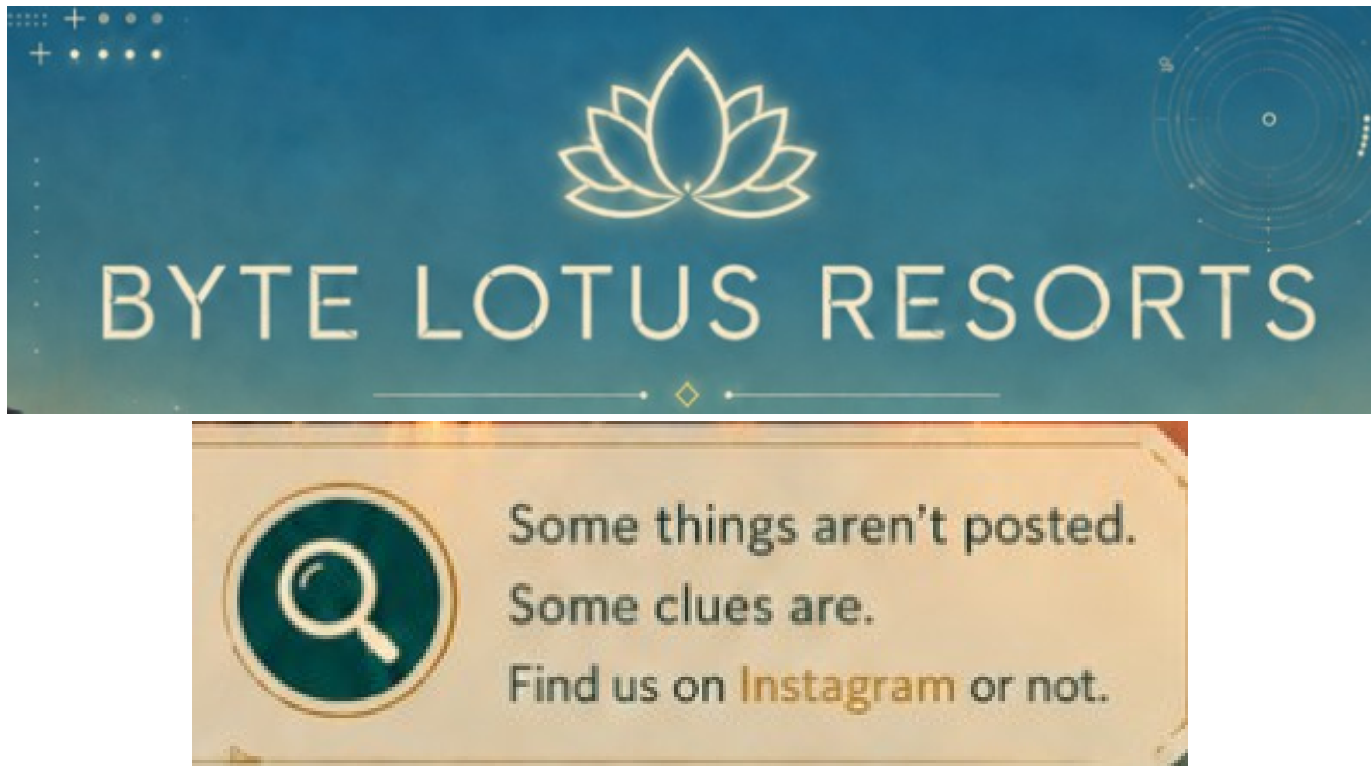

TODAY'S ITINERARY

- ☐ Analyze the provided image for embedded clues.
- ☐ Apply fundamental OSINT techniques to trace the findings.
- ☐ Locate the hidden social media account.
- ☐ Submit the flag.

The first thing on the Itinerary is to Analyze the image for embedded clues

Hacker Holidays 2026 – Day 0

The Brochure

We note the name of the resort, and that it has an account on Instagram

Hacker Holidays 2026 – Day 0

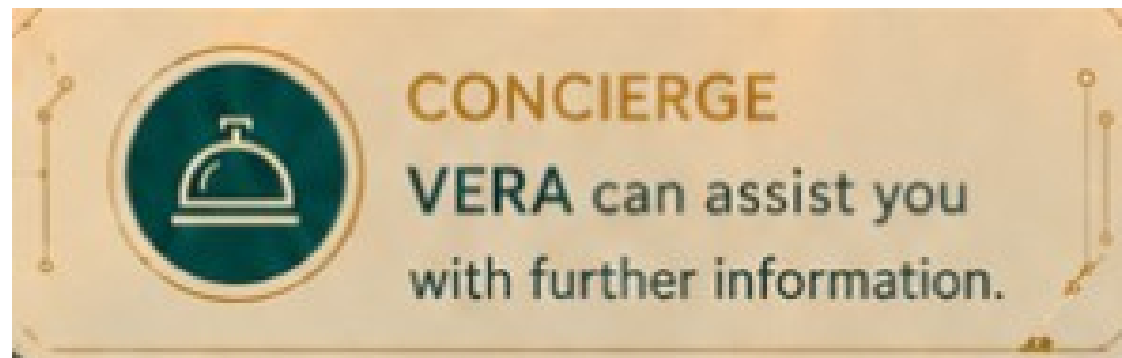

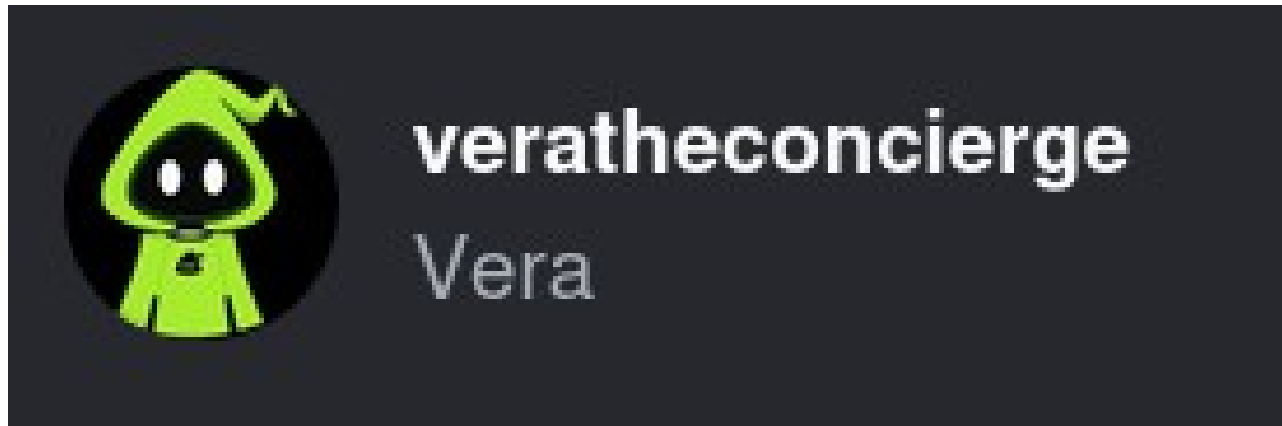

The Brochure

When we look at the Instagram account for The Byte Lotus Resort, we see that it is only following one account

Hacker Holidays 2026 – Day 0

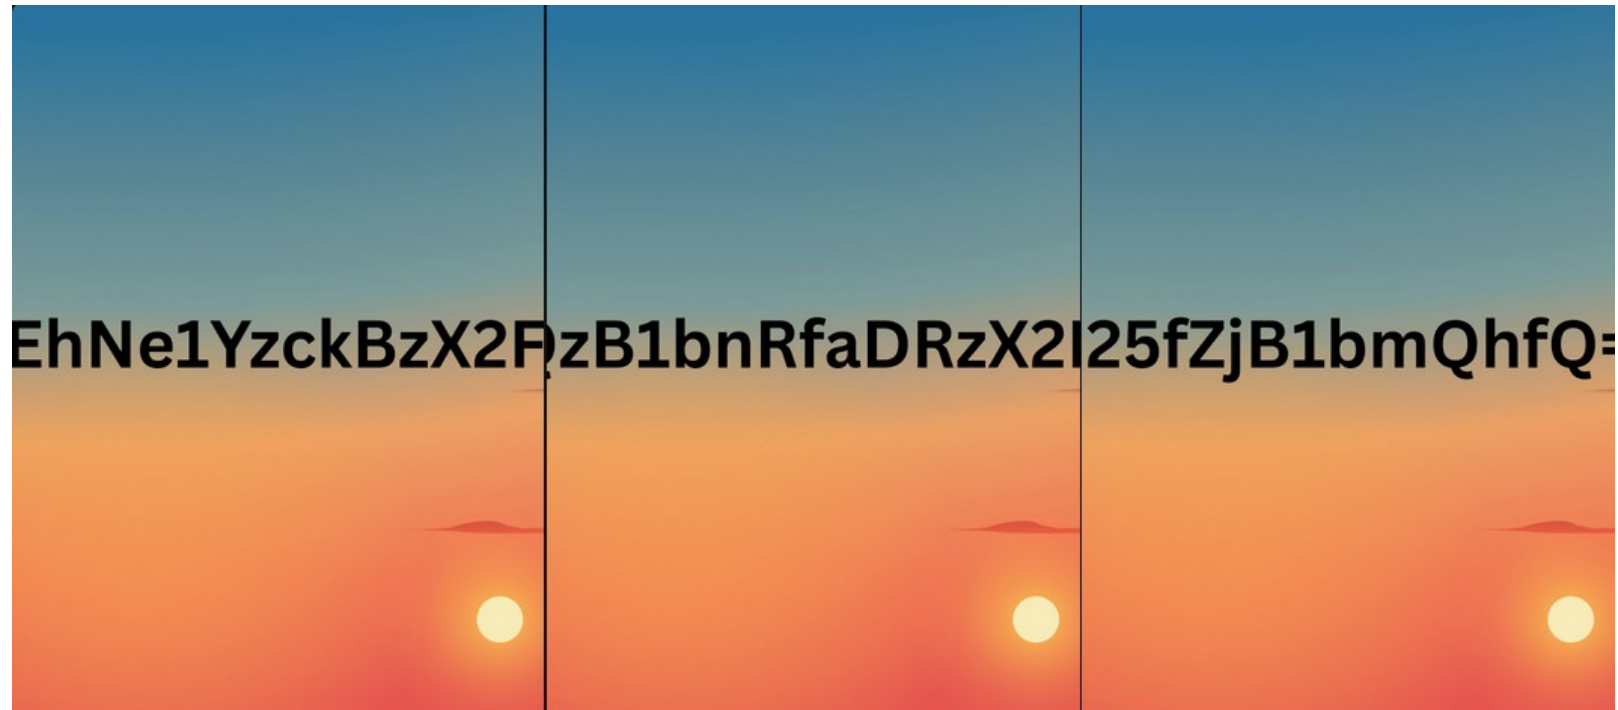

The Brochure

We see the account is for VERA the Concierge, and it was mentioned that they could assist us

Hacker Holidays 2026 – Day 0

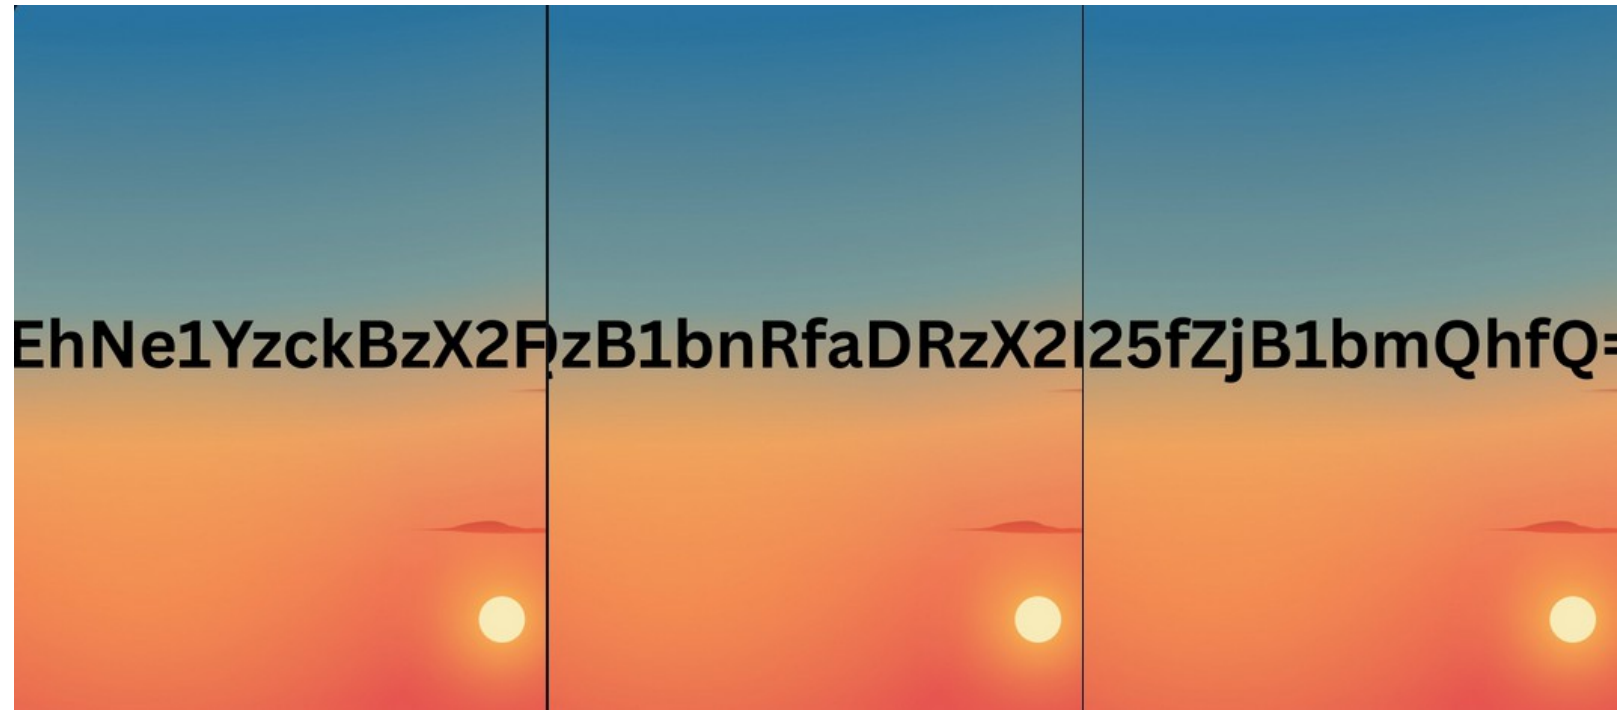

The Brochure

When we access the VERA account, we see that it has three posts, which look like an encoded message

Hacker Holidays 2026 – Day 0

The Brochure

This message is base64-encoded. We can decode the message to get the challenge flag
