

Hack The Web – Secret Text

Even as a child, it was a lot of fun to decipher a secret text piece by piece. Here you can relive this in an interactive way.

Instructions: Press two letters **at the same time** on the keyboard, they will be highlighted and swapped.

In this challenge, we're asked to decipher a secret message

Hack The Web – Secret Text Cryptography – Letter Substitution

"Tcrt's Eulzh," Jpkxrn srxq. Jpkxrn tfxstoq cxs dupte xntu r leuuzoq
sdxko. Hrqexok kuuzoq wrlz rnq vuetc wotfoon Jpkxrn rnq tco bcutu.
"Sco's beotth," co srxq, nut gpcto speo fch. Co scxvtoq cxs foxmct. "Xs
sco hupe mxekvexonq?" co rszoq, tehnm tu drzo xt supnq lrsprk. Jpkxrn
snuetog. "Nu." Co kornoq wrlz rnq beubboq cxdsoqv pb un cxs okwufs.
"X'd nut wxm un mxekvexonqs." Hrqexok eukkoq cxs ohos rnq krpmcoq
sgöttxlrrkh. "Fcrt, wolrpsu hup'eo r dpjoexomu ue sudotcxnm? Qu hup
cryo tuu drnh spxtues tu mot xnyukyoq fxtc jpst uno?" co rszoq,
skxmctkh rnnuhoq. "Nu," Jpkxrn mepdwkoq, cxs ohos stxkk vxioq un tco
horewuuz. "Wolrpsu X'd mrh, hup rsscuko." Hrqexok wxnzsoq. Co ... Co
crqn't oiboltoq tcrt. Co streog rt Jpkxrn.

From the secret message, and the instructions,
we can infer that this is a cryptographic letter
substitution cipher

Hack The Web – Secret Text Context Clues

"Tcrt's Eulzh," Jpkxrn srxq.
sdxko. Hrqexok kuuzoq wrlz rn

The answer is the name of the person who says the first sentence.

From the looks of the text, and the question we're supposed to answer, this text is supposed to be two people having a conversation

Hack The Web – Secret Text Context Clues

"Tcrt's Eulzh," Jpkxrn srxq.
sdxko. Hrqexok kuuzoq wrlz rne

The answer is the name of the person who says the first sentence.

We can deduce that the first word is supposed to be “That's” and the fourth word is supposed to be “said”.

Hack The Web – Secret Text Context Clues

Julian **tfisted** his qputh **intp** a koppzed
d vpoth **wetfeen** Julian and the bhptp.

Now we can sub out “tfisted” for “twisted”, “intp”
for “into”, and “wetfeen” for “between”

Hack The Web – Secret Text Context Clues

sqile. Cadpiel loozed bakz and vopth between
"She's fpettc," he said, not quite supe whc.

Then we can sub out “sqile” for “smile”, “loozed bakz and vopth” for “looked back and forth”, and “quite supe whc” for “quite sure why”

Hack The Web – Secret Text Context Clues

sqile. Cadpiel loozed bakz and vopth between
"She's fpettc," he said, not quite supe whc.

We can continue in this way until the entire
conversation is deciphered
