

Hack The Web – Scan Me

In this challenge, we're only provided with a QR code

Hack The Web – Scan Me

QR Codes

QR codes are symbols which contain encoded data, which could take the form of text or URLs

Hack The Web – Scan Me QR Codes

There are many ways of interacting with QR codes, including using a mobile phone

Hack The Web – Scan Me QR Codes

Google

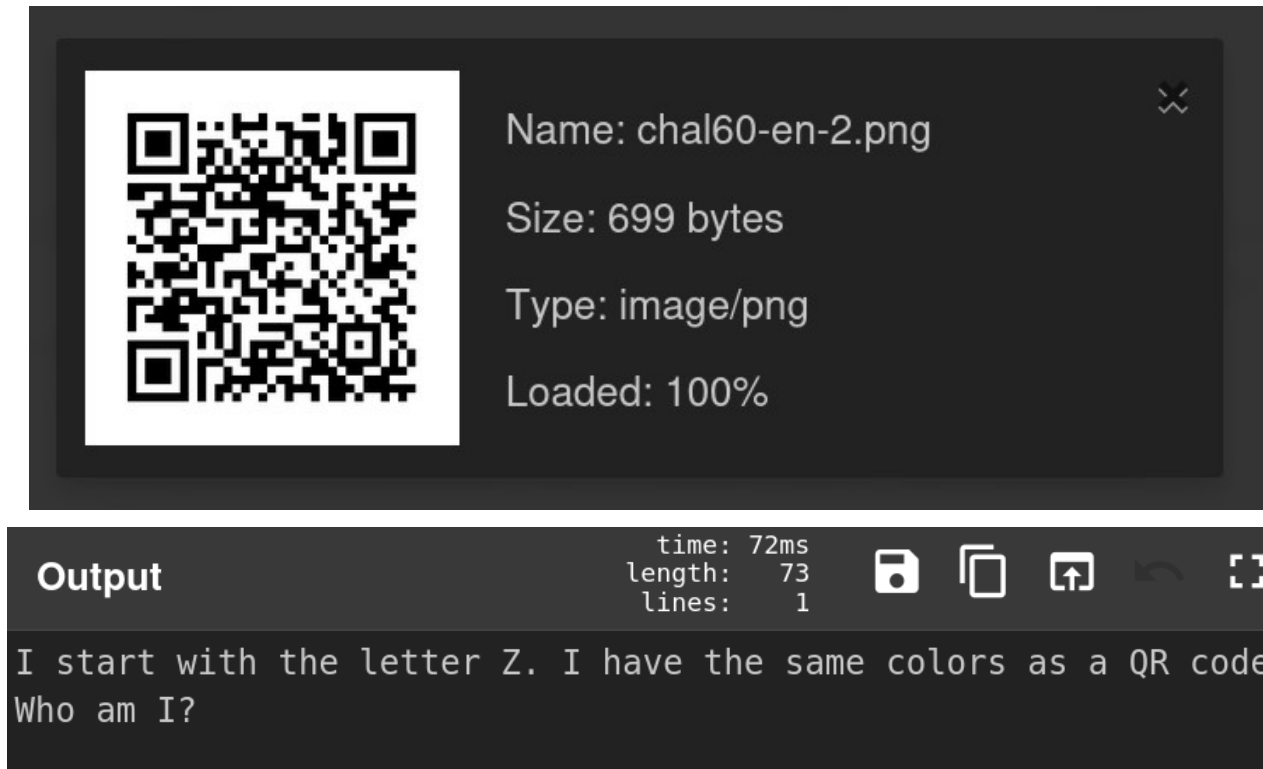

Add to your search

I start with the letter Z. I have the same colors as a QR code. Who am I?

If you provide the link to the QR code to a reverse image search tool like Google, it will be able to parse the QR code's contents

Hack The Web – Scan Me QR Codes

We can also use the Cyberchef tool to decode the contents of QR codes
