

Hack The Web – [Redacted]

Imagine a group of people commits a crime, and the police protect these individuals and ensure that none of them are punished by censoring the evidence. Terrible and unheard of!

There are different types of censorship, and sometimes you can do something about it! Your answer is noted in [this PDF document](#); unfortunately, it has been censored.

In this challenge, we're presented with a PDF document, and asked to retrieve censored information

Hack The Web – [Redacted]

Bypassing PDF Content Censorship

The answer is  but fortunately, you will never see it.

When we look at the PDF, we see that there's a word that has been censored

Hack The Web – [Redacted]

Bypassing PDF Content Censorship

The answer is  but fortunately, you will never see it.

Depending on the method used to censor the data, it may be possible to recover the censored content

Hack The Web – [Redacted]

Bypassing PDF Content Censorship

```
▼ <div class="textLayer" tabindex="0" style="width: round(var(--scale-factor) * 595.
  round(var(--scale-factor) * 841.90002px, 1px);" data-main-rotation="0"> event
▼ <span style="left: 14.29%; top: 6.93%; font-size: calc(var(--scale-factor...00px);
  transform: scaleX(0.944132);" role="presentation" dir="ltr">
  The answer is incompetent, but fortunately, you will never see it.
  </span>
```

One method we could use is to inspect the pdf elements in the web browser

Hack The Web – [Redacted]

Bypassing PDF Content Censorship

The answer is [REDACTED] but fortunately, you will never see it.

The answer is incompetent, but fortunately, you will never see it.

For this PDF, we can highlight all of the text, including the censored part, and copy the data, then paste it to another
