Hack The Web – Tube III

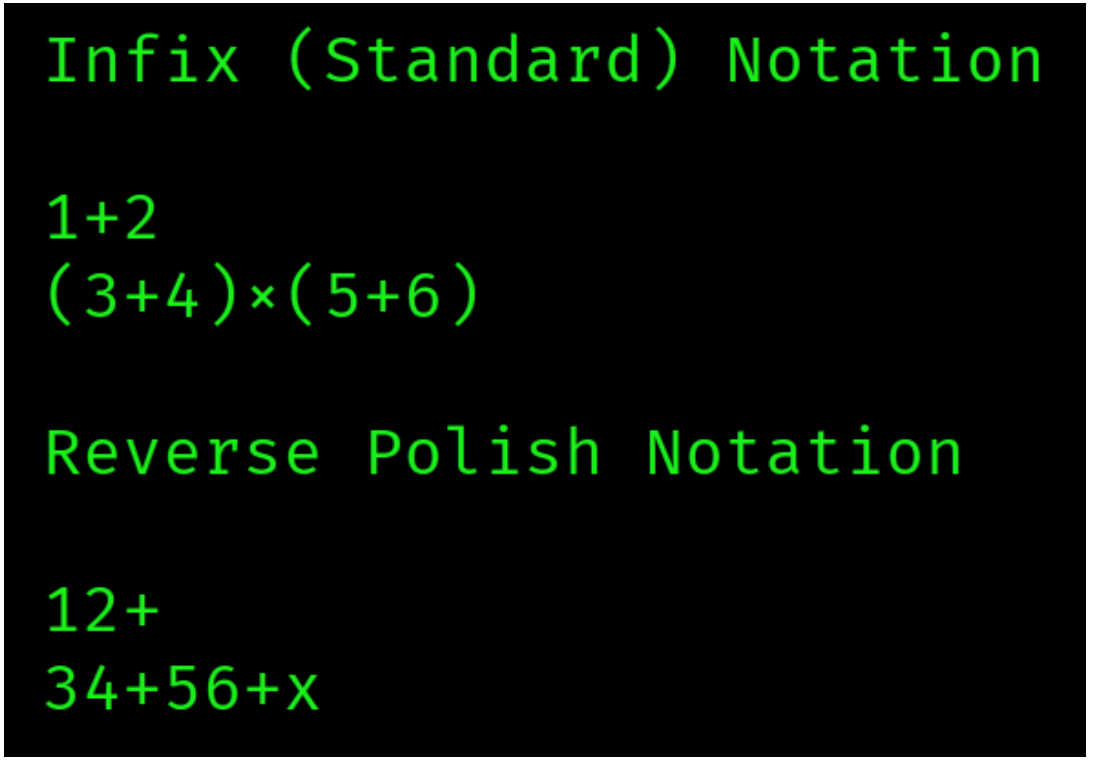

In this challenge, we're asked to use a tube calculator to calculate to the number 100

Hack The Web – Tube III

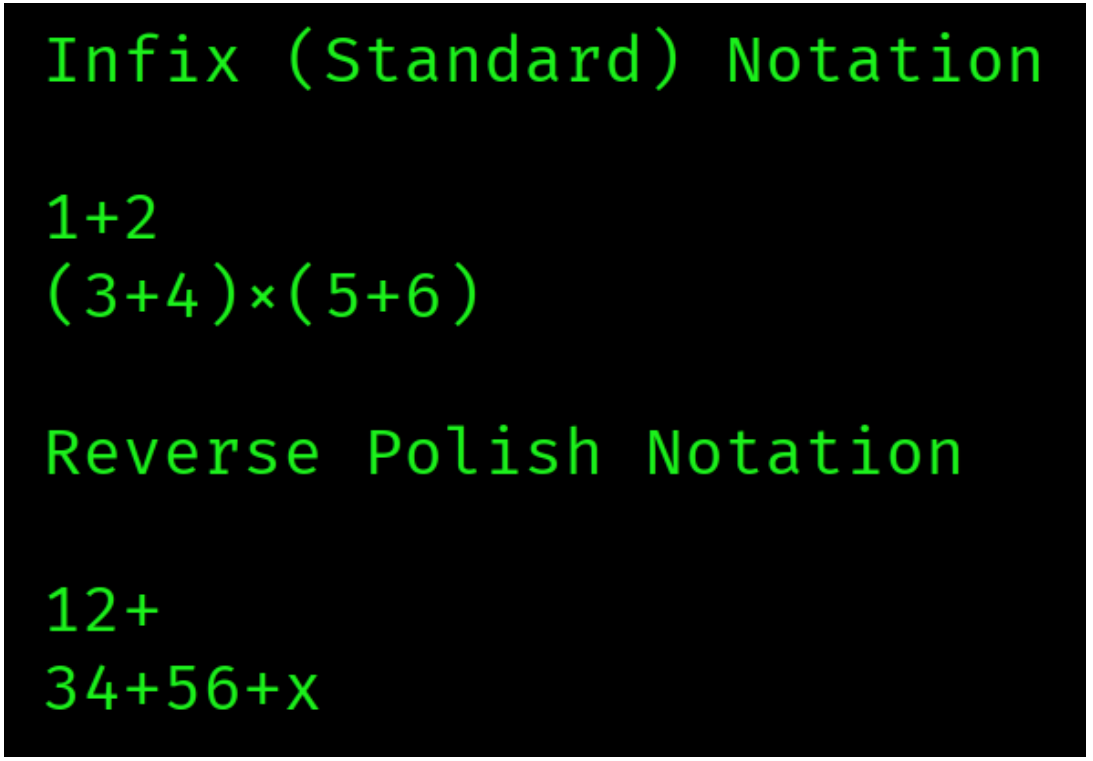

However, we're restricted to only the numbers 0,1, and 2, and the multiply and subtract operations, but given an extra operation, duplicate

RPN Calculator

Standard Notation

10 = (2 x 2) – 1 x (2 x 2) – 2

RPM Notation

22x1-2x2x2-

In this case, because we want to calculate to the total of 100, we use this RPM equation. After we have 10, we can duplicate the number and multiply 10 x 10, resulting in 100
